Dance Magic

Foxes

I know you like when we fight
Gets you where you want to be
I know we try to play nice
But baby, tell me honestly

Wake up to break up, it's better right
Make up to break up, we like it like that

But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)
But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)

But when we wake up to break up, it's better right
Make up to break up, we like it like that
But when we wake up to break up, it's better right
Make up to break up, we like it like that

So on and off, I lose sight
What everybody else can see
We drink too much to lose touch
And I know it's not good for me

Wake up to break up, it's better right
Make up to break up, we like it like that
Wake up to break up, it's better right
Make up to break up, we like it like that

But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)
But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)

Maybe we just live for drama
Swallow and repeat it
Hate it, need it, starve it, feed it
Make our bed, get in it

But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)
But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)

But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)
But when we dance magic, oh
When you kiss me like I need it
So tragic (so, so tragic)
(We like it like that)
