

Dance

Foxes

I want you, got no shame
This therapy's gone to waste
When the midnight hour comes in vain
You're in my head, you say my name

Just for now
I'll say it out loud

Can we dance through the fire?
And just hold me for a second
Can we keep pretending
The movement's alive?
Maybe hold me for a second
I just wanna know, can we dance?
Can we dance?
Can we dance?
Can we dance?

What's the difference in love and pain?
It's mad that they both drive you insane
And under ice, can't see anything
But you're in my head, you say my name
Just for now, I'll say it out loud

Can we dance through the fire?
And just hold me for a second
Can we keep pretending
The movement's alive?
Maybe hold me for a second
I just wanna know, can we dance?
Can we dance?
Can we dance?
Can we dance?

Will never let you down, down
I'm here to stay
Will never let you go, no, no way
No way, no way, no way

Can we dance through the fire?
And just hold me for a second
Can we keep pretending
The movement's alive?
Maybe hold me for a second
I just wanna know, can we dance?
Can we dance?
Can we dance?
Can we dance?
(No way, no way, no way)

I want you, got no shame
