Foxes

Remember the night  
In slow motion  
Say you don't cry  
Yeah you do

Outside the cinema  
Are hearts broken  
Burning down  
So I'll stay for a while

And all the lights went down in Hollywood  
All the demons out in the neighbourhood  
Got a lot to learn 'cause it didn't play out  
Like I thought it would  
In Hollywood  
Hollywood

Welcome to the part where I break down  
Sitting in the dark is you  
And maybe you were right  
I should've left when I could have  
I should've left when I could have

And all the lights went down in Hollywood  
All the demons roam in the neighbourhood  
Got a lot to learn 'cause it didn't play out  
Like I thought it would  
In Hollywood  
Hollywood  
Hollywood  
Hollywood

All the lights went down in Hollywood  
All the demons roam in the neighbourhood  
Got a lot to learn 'cause nothing ever works out  
Like you think it should  
In Hollywood  
Hollywood  
Hollywood  
Hollywood  
Hollywood  
Hollywood
