

# Potential

## Foxes

When we are in colour  
In ecstasy we're spinning through  
We call that one heaven  
You knew I wanted you to make that move

Once upon a time in passion  
I would blindly look the other way  
I would go numb to your reaction  
But I've been tryin' to find a new way

You think it's on lock 'cause we got potential  
Not gonna talk, keep it confidential  
Nights with you are becoming essential (Nobody, you're like nobody else)  
You think it's on lock 'cause we got potential  
Don't wanna stop, wanna love, I'm meant to  
Nights with you are becoming essential (Nobody, you're like nobody else)

Make me wait on this forever  
I didn't mean to suddenly retreat  
Have you gone found somewhere better?  
If you don't walk away, I won't walk away

But if you pull back, I'll take a step back  
Don't think I can call for back up  
Telling you now, I'm telling you now

You think it's on lock 'cause we got potential  
Not gonna talk, keep it confidential  
Nights with you are becoming essential (Nobody, you're like nobody else)  
You think it's on lock 'cause we got potential  
Don't wanna stop, wanna love, I'm meant to  
Nights with you are becoming essential (Nobody, you're like nobody else)

(You're like nobody, you're like nobody else  
You're like nobody, you're like nobody else)

Don't make me wait on you, don't make me wait on you  
Don't make me wait on you, don't make me wait on you  
Don't make me wait on you, don't make me wait on you  
Don't make me wait on you, don't make me wait on you

Don't make me wait on you, don't make me wait on you  
Don't make me wait on you, don't make me wait on you  
(You're like nobody, you're like nobody else)  
Don't make me wait on you, don't make me wait on you  
Don't make me wait on you, don't make me wait on you  
(You're like nobody, you're like nobody else)

You think it's on lock 'cause we got potential  
Not gonna talk, keep it confidential  
Nights with you are becoming essential (Nobody, you're like nobody else)  
You think it's on lock 'cause we got potential  
Don't wanna stop, wanna love, I'm meant to  
Nights with you are becoming essential (Nobody, you're like nobody else)

Don't make me wait on you, don't make me wait on you  
Don't make me wait on you, don't make me wait on you

(Nobody, you're like nobody else)  
Don't make me wait on you, don't make me wait on you  
Don't make me wait on you, don't make me wait on you  
(Nobody, you're like nobody else)
