

Rise Up

Foxes

My hands are shaking, but there's nothing to feel
I'm wide awake with my ghost
Lay down beside me while I shot myself in
My tears keep falling, don't wanna feel this way no more

Rise up right now, rise up right now
Rise up - I know you can, get off the ground
Rise up right now, rise up right now
Rise up - I know you can, get off the ground

Stuck a minute cause I am so cold
If the river dries my heart won't beat right anymore

Rise up right now, rise up right now
Rise up - I know you can, get off the ground
Rise up right now, rise up right now
Rise up - I know you can, get off the ground

You go, and I'm breaking out
Leaving where the river's low
Say you gonna make it
And stop pretending
Rise up - Hey, I'm going on
I don't need your love no more
Leaving where the river's low
Stop pretending

Rise up, rise up, rise up
Rise up, rise up, rise up
