

# Sky Love

Foxes

Wanna feel electric with just one touch  
Fall for somebody way too much  
And no matter how high, it's never enough  
Sky love, sky love  
I wanna go further, I wanna be nervous and watch  
I know that you found it until it feels like

Sky love  
It's the same  
But you know when you got  
Sky love  
When you're wide awake  
With your heart out on the floor  
Sky love  
Until it feels like  
Sky love

Not going to find it down here on the ground  
No one will hear me if I don't make a sound  
And I know it's scary, but it's how it should feel  
Sky love, sky love  
I just want a feeling, don't want to be numb  
A lot above that makes me wanna look up like

Sky love  
It's the same  
But you know when you got  
Sky love  
When you're wide awake  
With your heart out on the floor

Hold me, hold me, hold onto me  
Sky love  
Hold me, hold me, hold onto me  
Until it feels like  
Hold me, hold me, hold onto me  
Sky love  
Hold me, hold me, hold onto me

I'm holding out for real love  
I'm holding out for, I'm holding out for  
I'm holding out for real love  
I'm holding out until it feels like

Until it feels like  
Sky love  
I'm holding out  
Sky love  
It's the same  
But you know when you got  
Sky love  
When you're wide awake  
With your heart out on the floor

Hold me, hold me, hold onto me  
Sky love  
Hold me, hold me, hold onto me

Until it feels like
