

# The Kick

Foxes

Beat within the heartbeat

Sometimes, sometimes you need to break down  
Sometimes you need to lose spirit  
Need to breathe in to breathe out  
'Cause I know that you're trying to make heaven  
In a world that is cold and lost all feeling  
But I know if you picture somewhere better  
Maybe we'll get there  
Baby, we'll get there

When you know you're missing the kick  
When you know you're missing the kick  
When you know you're missing a beat within the beat, within the heartbeat  
When you know you're missing the love  
When you know you're missing the love  
When you know you're missing a beat within the beat, within the heartbeat

Beat within the beat  
Within the heartbeat  
When you know you're missing the love  
When you know you're missing a beat within the beat, within the heartbeat

Just leave it  
Listen to the ghost, but don't feed it  
Every time you do you lose spirit  
It's getting kind of hard, but stick with it  
'Cause I know that you're trying to make heaven  
In a world that is cold and lost all feeling  
But I know if you picture somewhere better  
Maybe we'll get there  
Baby, we'll get there

When you know you're missing the kick  
When you know you're missing the kick  
When you know missing the beat within the beat within a heartbeat  
When you know you're missing the love  
When you know you're missing the love  
When you know you're missing a beat within the beat, within the heartbeat

Beat within the beat  
Within the heartbeat  
When you know you're missing the love  
When you know you're missing a beat within the beat, within the heartbeat

Just leave it  
Listen to the ghost, but don't feed it  
Every time you do you lose spirit  
It's getting kind of hard, but stick with it

When you know you're missing the kick  
When you know you're missing the kick  
When you know you're missing a beat within the beat, within the heartbeat  
When you know you're missing the love  
When you know you're missing the love  
When you know you're missing a beat within the beat, within the heartbeat

Beat within the beat  
Within the heartbeat  
When you know you're missing the love  
When you know you're missing a beat within the beat, within the heartbeat  
  
When you know you're missing the kick
