

# Cry Baby

Foxing

If I could I'd start over again  
It's been fun but I'd change everything  
But there's you smiling when I come home  
Yeah there's you on the other side of the phone

So now I  
I shut it down and lock it up

If I could I would live my life twice  
In the next spend each second at your side  
Drain our days dancing every inch of the house  
Until we've all but worn our shoes and hardwood down

So now I  
I shut it down and lock it up  
So now I  
I shut it down and lock it up
