

Draw Down the Moon

Foxing

I'm never gonna stop loving you
If I could I would have done it by now
We circle like salmon in holy pools
Gathering speed until we can't slow down

You said you're gonna stop loving me
Though I've been crawling on my hands and knees
Through the valleys in the dark
I fall apart, you pick me up
As impossible as I can be

So if you wanna run right out
I will always be a home

Oh but I... I wanna show you I
I can keep it all together
I... I wanna show you I
I can keep it all together

I wanna draw down the moon
For nothing but to deserve you
Oh but I... wanna show you I
I'm never gonna stop loving you

When I fall into a spiraling debt
Gentle is the drop
When you tell me I'm enough
As impossible as it felt

So if you wanna run right out
I will always be a home

Oh but I... I wanna show you I
I can keep it all together
I... I wanna show you I
I can keep it all together

I wanna draw down the moon
For nothing but to deserve you
Oh but I... I wanna show you I
I can keep it all together

You can let go but I... I wanna show you I
I can keep it all together
I... I wanna show you I
I can keep it all together

I wanna draw down the moon
For nothing but to deserve you
Oh but I... I wanna show you I
I can keep it all together

Show you I
I can keep it all together
Show you I
I can keep it all together

(I wanna draw down the moon)
(I wanna draw down the moon)
