

Fall Into A Dream

Foxwarren

Leave your lover
Find another at your side
Carry on
See the worst in everyone

Dream breaker
Making fun of all their fears
Ramble on
Till you've bested everyone

If you fall into a dream
Forget about me
(alright)

Slow motion
I can't keep it off my mind
Let it die
Ill remain an empty room

Fear Lady
Powder and smoke blue
Forget you
Leave your footprints out the door

If you fall into a dream
Forget about me
If you fall into a dream
Forget about me
