

## In Another Life

Foxwarren

Poor fool look at you now  
Finding nothing in your heart can last  
Hold a feeling just to fill in the past  
Keep it in a closed fist  
Save it for another night  
Oh fool look at you now  
What a wicked way to fill up your time  
Talking shit until it feels alright  
You never had a good heart  
Maybe in another life I will need you

Poor fool look at you now  
Find it easiest to hand out the blame  
Pull the minutes out of another day  
Message from a cold smile  
Stepping on another night  
Oh fool look at you now  
No one finds it in between the lines  
Save a whisper for a sliver of light  
You never had a good friend  
Maybe in another life I will need you  
In another life I will need you  
In another life I will be you  
In another life I will be you  
In another life I will be you
