

Say It

Foxwarren

Break it down, don't repeat it
It's fine now, just forget it
I don't even know how to say it
I don't even know how you're saying it

Take five, let's leave it
Don't need to keep on with it
I don't even know how to say it
I don't even know why you're saying it

I want something new, and I don't know you
Maybe anymore

Break it down, let's forget it
It's fine now, to admit it
I don't even know how to say it
I don't even know how you're saying it

I want something new, and I don't know you
Maybe anymore
