

# Strange

Foxwarren

I knew that you would be a big part of this  
I feel like I don't want to be far from this  
Do you ever wonder what it means?  
Can I tell you that I find it strange?  
That you could know  
How could you know?  
That I felt the same way?  
Miss your cue, and I'll take the blame

I knew that you would be a big part of this  
I feel like I don't want to be far from this  
Will my need for you grow stronger still  
Or will the feeling fade, against my will?  
How could you know?  
How could you know?  
Am I so far away?  
Missed my cue, will you take the blame?

Now that we know  
Now that we know  
Will you meet me halfway?  
Change your mind, and I'll do the same  
Meet me halfway  
Change your mind, and I'll do the same

I knew that you would be a big part of this  
I knew that you would be a big part of this  
I knew that you would be a big part of this  
I knew that you would be a big part of this
