

Wings

Foxwarren

Will you say your name?
I wanna hear you say it
And when I fall asleep
I'm gonna place it at the front of my mind
And let it spread its wings behind my eyes

Why am I not dreaming?
Why am I not dreaming about you?

And when I fall asleep
I'm gonna place it at the front of my mind
And let it spread its wings behind my eyes

Why am I not dreaming?
Why am I not dreaming about you?
