

Doomed

Foxy Shazam

Hide your china, Taurus born bull
Tore us out the vagina, buzzing souls
And smashing bowls in Over The Rhine
See me shine, see me shine

I don't give a
If you think I'm wrong or right
I don't give a
If you call it black or white
I don't give a
If you're keeping the time
Yum, here come some words that rhyme

I picture myself at the Louvre
Hang on the wall in the nude
Fuck a pipe, I shoot bamboo
All the cool kids think I'm queer
What they do not know they fear
Lipstick to the mirror

We stayed woke
Till the dawn broke
These walls are paper-thin
Let's burn the Benjamins
We won't be doomed to the earth
We won't be doomed to the earth
Doomed to the earth

Top of the mountain, in a hot tub
At the top of a mountain, smoking stars
And open bars, gonna light up the night
See me shine, see me shine

I don't give a
If you think I'm wrong or right
I don't give a
If you call it black or white
I don't give a
If you're keeping the time
Yum, here come some words that rhyme

I picture myself a cartoon
I'm a bang, I'm a crash, boom
Fuck the can, I shoot the moon
Fashion, the man of the year
Zoom on his cheek, there's a tear
Lipstick to the mirror

We stayed woke
Till the dawn broke
These walls are paper-thin
Let's burn the Benjamins
We won't be doomed to the earth
We won't be doomed to the earth
Doomed to the earth
(You know we won't be
You know we won't be)

Dirty city jacket on a dirty city vibe
Dirty city baby needs a dirty city ride
And I tell you what, baby
I love it when you recognize me, baby

You do it to me everytime
Lately, I've been turning down
All the fancy wine, and I'll tell you what, baby
I love it when you drink it for me, baby

Alright (alright)
Alright (alright)
Alright (alright)
Alright (alright)

We stayed woke
Till the dawn broke
These walls are paper-thin
Let's burn the Benjamins
We won't be doomed to the earth
We won't be doomed to the earth
Doomed to the earth
(You know we won't be
You know we won't be)
