

Life is but a sacred melody
Listen to the wind
Brings me to my knees
I can hear it sung in the birds
I can feel it bring in the words

If this is just a dream I don't wanna wake up
If this is just a dream I don't wanna wake up
If this is just a dream I don't wanna wake up
If this is just a dream I don't wanna wake up
No, don't wake the dreamer

It's like watching the sun rise
I can see the whole world in your eyes
And I turn the whole thing over
Ooh I'll never find anything this good
You can go where you wanna go, what you wanna do
And risk it all for the truth

If this is just a dream I don't wanna wake up
If this is just a dream I don't wanna wake up
If this is just a dream I don't wanna wake up
If this is just a dream I don't wanna wake up
No, don't wake the dreamer

Dreams, baby, that's what it's about
People always ask me, I tell them straight up
I've been dreaming trying to turn it inside out
Dancing on the ceiling, tonight we're going out

Dreams, baby, that's what it's about
People always ask me, I tell them straight up
I've been dreaming trying to turn it inside out
Dancing on the ceiling, tonight we're going out

Forever
