

In the morning before the fog rises
Try not to cry, I can feel it behind my eyelids
I pull off the road in the middle of nowhere
Sitting in the whip, trying to pick up the phone

'Cause it's been so long
We've been moving on

I just wanted to be someone who loves you
Maybe someday you will understand
That I just wanted to be someone who loves you
I hope someday you will understand

In the dream, I reach out my arms to you
We do not embrace, you just stood there like a statue
I try to find the words to tell you that I
Before I could speak, you turned and disappeared

I just wanted to be someone who loves you
Maybe someday you will understand
That I just wanted to be someone who loves you
I hope someday you will understand

Woke up this morning
I took a look at my phone
That's when I realized that you were gone
Goodbye, I miss you
More than the sky is blue
Whoa, why did you have to go?
Goodbye, I miss you
More than the sky is blue
Whoa, why did you have to go?

'Cause it's been so long
We've been moving on

And I just wanted to be someone who loves you
Maybe someday you will understand
That I just wanted to be someone who loves you
I hope someday you will understand

'Cause it's been so long
We've been moving on
I hope someday you will understand
I hope someday you will understand
