

# I'll Be Home Soon Mother Earth

Foxy Shazam

Save up all my money and take a little trip  
Gonna kiss the sky, don't know if i'll live or die  
Yeah i'll probably die

Staying up late and rollin' with my friends  
Remember how it starts but always forget how it ends  
Oh how it ends

And I talk, til I come full circle, come full circle  
I'd give anything a second try

Time, out of place and out of time  
to escape the state of mind that i'm in  
I'll come back to me sometime  
time  
moving in and out of time  
across the universe divine that i'm in  
i'll be back soon mother earth

With Angels sending images back into my mind  
I'm hearing new songs and songs I've heard a thousand times  
Oh outta sight

and i talk, til i come full circle, come full circle  
i'd give anything a second try

Time, out of place and out of time  
to escape this state of mind that i'm in  
Time, moving in and out of time  
cross the universe divine that i'm in  
i'll be back soon Mother Earth

Out of place and out of time  
to escape this state of mind  
Moving in and out of time  
cross the universe divine
