

In My Mind

Foxy Shazam

Soon as the mighty night gets started I feel alive
You don't have to cry now
Don't have to lie now
Don't have to watch what you say around me

In my mind we could be free
In my mind I'm talking like fuck it all we could be free

Let the beauty overpower my innocence
And the blood rushes to my head
Will you ring it out like a dirty dishrag
Or will you hoist it up like a flag

Soon as the mighty night gets started I feel alive
Come on baby let's go out at night let's paint the town let's paint it right

In my mind we could be free
In my mind I'm talking like fuck it all we could be free

Let the beauty overpower my innocence
And the blood rushes to my head
Will you ring it out like a dirty dishrag
Or will you hoist it up like a flag

We're free
Free to do the things we only dreamed we could

Let the beauty overpower my innocence
And the blood rushes to my head
Will you ring it out like a dirty dishrag
Or will you hoist it up like a flag
