

Never Ever

Foxy Shazam

I don't ever wanna hear your shit
Never ever have to see you talk
Never ever wanna see your face
Never ever ever
I don't ever have to hear you breathe
You just have to sit and watch me leave
Give I give I give and you receive
Never ever ever

You're so mean
The way you move your lips
You're so mean
The way your face is fixed
You're so mean
How do you live like this
You're so mean
I think you get the gist

It's like the world moves around your world
Turns me so inside out
Out of my mind
Even if I had no one on earth to be with in the dirt
I will lay fine

I don't ever wanna hear your shit
Never ever have to see you talk
Never ever wanna see your face
Never ever ever
I don't ever have to hear you breathe
You just have to sit and watch me leave
Give I give I give and you receive
Never ever ever

You're so mean
I hope you trip and fall in dogshit
You're so mean
You long tittied no nipples having ass bitch
