

## Some Kind Of Love

Foxy Shazam

Everybody has a love story  
Well I have a few for you  
It won't take long  
Here they are

One, two, three four

Power outage on a Saturday night  
Game of tag with two flash lights  
Then I smell her inching closer  
As our bodies heat up a roller coaster

Next thing you know we were tangled in laughter  
Two teenagers hearts couldn't beat any faster  
We were lost in the light, baby losing our minds  
Losing our minds

Some kind of love, some kind of feeling  
I have up in my heart tonight, I'm letting loose on you  
Some kind of love, some kind of feeling  
I have up in my heart tonight, I'm letting loose on you

Feel so perfect in this type of light  
Summer storm kept us up all night  
And the rain was pounding down  
And the music it made it such a heavy sound

For me I'm glowing at the light it's creating  
Let's up the room we can see what we're making  
I'm in over my head and I'm losing my mind  
Losing our minds

Some kind of love, some kind of feeling  
I have up in my heart tonight, I'm letting loose on you  
Some kind of love, some kind of feeling  
I have up in my heart tonight, I'm letting loose on you

Some kind of love, some kind of feeling  
I have up in my heart tonight, I'm letting loose on you  
Some kind of love, some kind of feeling  
I have up in my heart tonight, I'm letting loose on you
