Wifes Juice And Watertower Wine

Foxy Shazam

I'll use my dinner table manners Cause it's my wife's juice and watertower wine

Someone call the cops and tell them to come and stop me Someone call the nurse because my tummy kinda hurts Someone call the fire department cause my pussy cat's stuck in the tree and I'm afraid of hieghts...

I saw genuise in your teeth when you smiled at me And I saw power in your thighes when you shifted them at me I saw all things I needed to too be obsessed with you

Mm mm mm I bet you taste good... yeah

I'm a dinosaur with a monkey mind Dreaming of watertower wine And my wife's juice is getting cold Glass like ice of silver and gold
