Face the Facts

Foxygen

When I think of you
It feels like I
Am living in
1975
Now that it's over
I wanna live in the times
When they put cocaine in Coca-Cola
You better face the facts
You're never gonna be a famous Rock n' Roller
Now that it's over

Face the facts
I'm never gonna get you back, Love
Face the facts
I'm never gonna get you back, Love
Face the facts
I'm never gonna get you back, Love
Face the facts
I'm never gonna get you back

Sometimes you just screw up and you can't take it back
I gotta face the facts
I'm never gonna see your face again
I'm never gonna dance like James Brown
I'm never gonna be black
And I'm never gonna get you back

Face the facts
I'm never gonna get you back, Love
Face the facts
I'm never gonna get you
Face the facts
We're never gonna turn time back, ooh
Face the facts
You could go forward but you can't go back

Face the facts
I got to face the facts
Never gonna turn time back
Face the facts
You could go forward but you can't go back
