

Fire It Up (The Silver Spear)

Foy Vance

Well I've turned it up, can you hear me now?
We can heed beyond the plans allowed
Get fired up and in the town
We need to make a greater sound

In anger all we're disavowed
No need to scream yet bleed the shout
Spent too long so deep in doubt
Now it's the only thing to sing about

So talk it over with your brothers and sisters in the night
Undercover until darkness intercedes in light

When we gonna make a start?
Fire it up, fire it up
When we gonna find our heart?
Fire it up, fire it up
When we gonna make life art?
Fire it up, fire it up
When we gonna don our armor?
Fire it up, fire it up
Fire it up

And I can't believe in this place and time
That we fail to read the simple signs
Survey it all it's yours and mine
But the spark has yet the fire to light

So talk it over with your brothers and sisters in the night
Undercover until darkness intercedes in light

When we gonna make a start?
Fire it up, fire it up
When we gonna find our heart?
Fire it up, fire it up
When we gonna make life art?
Fire it up, fire it up
When we gonna don our armor?
Fire it up, fire it up
Fire it up

When we gonna make a start?
Fire it up, fire it up
When we gonna find our heart?
Fire it up, fire it up
When we gonna make life art?
Fire it up, fire it up
When we gonna don our armor?
Fire it up, fire it up
Fire it up
