

Good Time Southern Soul

Foy Vance

Do you remember last Saturday night?
Darling on the outskirts of town where there aren't any streetlights
You ask me "Baby, where do you wanna go?"
Baby I just wanna know
Where we can dance to some good time southern soul?

Don't want a dinner by candlelight
I know maybe there's time but tonight ain't that kinda night
I wanna show you everything you need to know
Baby, I just wanna go
With you and dance to some good time southern soul

Well, the fever's high and the lights are low

And all night got the jukebox on
And everybody's feeling Saturday night
We're gonna dance till we're running out of moonlight
Baby, don't you wanna go now?

(Don't wanna go?
Don't wanna go?)

Well, the fever's high and the lights are low
And all night got the jukebox on
And everybody's feeling Saturday night
We're gonna dance till we're running out of moonlight
Baby, don't you wanna go now?
Baby, don't you wanna go now?
