

## Altered State of Consciousness

Fractal Gates

The sky is red, falling apart  
Burning Fields stroke my way  
The rage inflames, yelling afar  
Shall I be consumed by War ?

Ablaze in fear

Searching signs to escape  
Under starlit nightmare  
Millions of fighting men  
Yet just a few are real

The raining plague silences time  
Unleashing ghosts of hate  
Appalling names, yearning a scar  
Cruel demons of decay  
Shapeless face, murderinrg dawn  
Ethereal faded stead  
Stateless pain, learning to star  
Altering my mind

How long for Signs?

Help me to cross the line  
To fly away from decline  
Take me  
To angels of undying end

Altered State of Consciousness

The rising veil slowing my heart  
Freezing void sets my way  
Erasing flames, blurring my past  
My future is mine
