

## Feel

## Fractures

Who saw,  
Cracks form?  
New doubts  
Turn into strangers

Bleedin' for too long  
Whose fault,  
One or the other?  
One or the other

Mixed up (notions)  
What's left (broken)  
Forced it  
Fools to deny it  
Fools to deny it so long

I've been runnin' from somethin'  
Didn't wanna know  
Suddenly, out it comes and I'm uncovered  
Now my heart's beatin' on its own

New day  
Old ways  
Tiptoe  
Hope for an endin'  
Hope for an endin'

I said  
Hold on  
You say  
I'm not the answer  
Love doesn't matter at all

I've been runnin' from somethin'  
Didn't wanna know  
Suddenly, out it comes and I'm uncovered  
Now my heart's beatin' on its own  
I'm succumbin' to somethin'  
I already know  
Everything's fallin' round me, burn it down  
Now my heart's feelin' on its own

Stop holding hope  
Our love's a ghost  
Stop holding hope  
Our love's a ghost

I've been runnin' from somethin'  
Didn't wanna know  
Suddenly, out it comes and I'm uncovered  
Now my heart's beatin' on its own  
I'm succumbin' to somethin'  
I already know  
Everything's fallin' round me, burn it down  
Now my heart's feelin' on its own
