

Fever Dream

Fractures

I've spent a long time looking for something right
Know it's time to get gone, I'm not tired
Now you're making eyes at me so
I see a buzz but I know your type and I know you like the way t
hat I'm moving
Let's, let's go back to where we were last night
I know that there's some things on your mind
Think three times [?] (one moment please)

Fever dream
Fever dream
Fever dream
Fever dream

So follow me somewhere you've never been before (I know you [?]
)
I could show you Eden if you want ([?])
Don't be shy, blink twice and move with it
Don't stop the beat, the beat, move your feet and bring the bea
t, the beat back
Don't look over your shoulder, let the rhythm pull you
Closer and closer, one more step until you
Cross over the threshold [?]
Nobody's come to hit the road Jack, don't trip in [?]

Fever dream
Fever dream
Fever dream
Fever dream

Take me back to where we were at last night
Show me everything you said I need
Fever dream, you got me from the [?]
