

Paradise

Fractures

I will always remember
The first time it all made sense
A momentary pause, I went quiet
Now it's burned in my memory
A slow zoom into your face
You told me that I should be careful, so careful

I've abandoned all my reason
I won't ever let you leave my side
Everything's moving in half time
Never thought I would be the type to fall in so quickly

Put your hands around me
You pull me under so easily
And I can feel it now, surrounding
Don't know what it is but it feels like paradise

You magnetized me
A pull that I can't resist
And there's no question your timing's right for me
What's it mean
It seems so easy
It feels like nothing could stop us now
Everything's moving in half time
Never thought I would be the type to fall in so quickly

Put your hands around me
You pull me under so easily
And I can feel it now, surrounding
Don't know what it is but it feels like paradise

I find myself hypnotized
Sinking into abyssal waters
Out of body and out of mind
(Let this daydream overtake me)
Let me look at you one more time
So the thought of you can't escape
And I'm not sure of the meaning but it feels like paradise

(Put your hands around me)
You pull me under so easily
And I can feel it now, surrounding
Don't know what it is but it feels like paradise...
