

# Unwind

## Fractures

Stick it in your suitcase, pondering  
Running circle round yourself  
You cover up your real face  
Shelter it inside

Re-engage your forcefield suddenly  
Acting like you're someone else  
Do you even feel pain?  
Do you even [?]

See your, see your [?]  
Feel your soul unwind  
Speak into the silence  
[?] (For myself)

See your, see your [?]  
Feel your soul unwind  
Speak into the silence  
[?] (For myself)

Fix it on the thought you're livin' in  
So broken, now you fool yourself  
And was I supposed to refrain?  
Stuck inside your silence

Look and see your conscious slip away  
Vanishing inside your shell  
Will you ever see straight?  
And do you even mind?

See your, see your [?]  
Feel your soul unwind  
Speak into the silence  
[?] (For myself)

See your, see your [?]  
Feel your soul unwind  
Speak into the silence  
[?] (For myself)

You gotta get back up, somehow  
You gotta fix yourself, somehow  
You gotta get back up, somehow  
You gotta fix yourself, somehow

You gotta get back up, somehow  
You gotta fix yourself, somehow  
You gotta get back up, somehow  
You gotta fix yourself, somehow

You gotta get back up, somehow  
You gotta fix yourself, somehow  
You gotta get back up, somehow  
You gotta fix yourself, somehow

You gotta get back up, somehow (Get back up)  
You gotta fix yourself, somehow (Fix yourself)

You gotta get back up, somehow (Get back up)  
You gotta fix yourself, somehow
