## **Walking Through Genetic Space**

## **Frameshift**

Walk - walk with me
And see through my eyes
Try to keep up
And you will understand

Think - open your mind a little more

Breathe - open your eyes and look around

Feel - that you are a part of something else

Come

Now we travel through both time and space See the beauty this world has made View the stages one by one Explore the change - don't be afraid

Walk - walk with me And see through my eyes Try to keep up And you will understand

Walk - walk with me And see through my eyes Try to keep up And you will understand

Hear - what the row of voices has to say
Speak - ask them questions on your way

Now we travel through both time and space See the beauty this world has made View the stages one by one Explore the change - don't be afraid

Walk - walk with me And see through my eyes Try to keep up And you will understand

Walk - walk with me And see through my eyes Try to keep up And you will understand

Walk - walk with me And see through my eyes Try to keep up And you will understand
