

Make You Smile

Franc Moody

I just want to make you smile
Take you on a journey ride

Cause you move me
You move me
You move me
You move me
Yeah you move me
You move me
You move me
You move me

When it's you and me
It feels like we're complete for
It's a true release
To spacewalk on the dancefloor
It's a new releaf
Can't you see I don't ask for much

I just want to make you smile
I just want to make you smile
I just want to make you smile
Yeah you move me
You move me
You move me
You move me
I just want to make you smile
Yeah you move me
You move me
You move me
You move me

I don't want to walk the line
No more
We should be Bonnie and Clide
For sure
In the moonlight
In the cover of darkness
We can cross the statement
I wish that nobody finds us

When it's you and me
It feels like we're complete for
It's a true release
To spacewalk on the dancefloor
It's a new releaf
Can't you see I don't ask for much

I just want to make you smile
I just want to make you smile
I just want to make you smile
Yeah you move me
You move me
You move me
You move me
I just want to make you smile
Yeah you move me

You move me
You move me
You move me
I just want to make you smile
