```
(Can buy it, can it wait)
Move me
Make me smile again
Wake me from my tonic state
Take these frozen limbs and let's re-animate
I want you to move me
Move me (can't wait, can't wait)
I want you to move me (move me, move me, make it right)
I want you to move me (move me in here, give me nice)
Move me
(You got somethin' good for me)
Give me that spoonful
I want you to move me
I want you to move me
(You got somethin' good for me)
I want you to move me (move me, move me, give me right)
I want you to move me (move me, move me)
(You got somethin' good for me)
I want you to move me (move me, move me)
Move me
I want you to move me (move me, move me)
Move me
(Can wait, can't it wait, can't buy it, can't it wait)
```
