

Pheromones

Franco Moody

My sense are up overall
'Cause I'm caught up in your undertone
They say our star signs, true are incompatible

Cancerians never work with Capricorns

Enough, I just can't get enough
Enough, I just can't get enough
Enough, I just can't get enough

Maybe it's just your pheromones
Maybe it's just your pheromones

I am about to go insane now
Feeling [?] push my way through

You say our star signs are just incompatible
Cancerians never work with Capricorns

Enough, I just can't get enough
Enough, I just can't get enough
Enough, I just can't get enough

Maybe it's just your pheromones
It's just your pheromones

Maybe it's just your pheromones
It's just your pheromones
