

## Skin On Skin

Franc Moody

You're the only one I need tonight  
You can set the mood like firelight  
I'm done with tryin' to play it cool  
I'm down with tryin' to keep it simple

All we need's a little skin on skin, toe to toe  
We can make it up as we go along  
A little skin on skin, toe to toe  
We can make it up as we go along

'Cause we got chemistry  
Chemistry  
We got chemistry (Chemistry, chemistry)  
Chemistry

You can't win a heart with cliches  
You can't win her over with champagne  
She won't fall for no diamond rings  
'Cause money won't buy you everything

All we need's a little skin on skin, toe to toe  
We can make it up as we go along  
A little skin on skin, toe to toe  
We can make it up as we go along

'Cause we got chemistry  
Chemistry  
We got chemistry (Chemistry, chemistry)  
Chemistry

It's just chemistry  
Chemistry  
It's just chemistry  
Chemistry  
It's just chemistry  
Chemistry  
(Skin on skin, toe to toe  
We can make it up as we go along)  
It's just chemistry  
Chemistry  
(Skin on skin, toe to toe  
We can make it up as we go along)  
It's just chemistry
