

Terra Firma

Franc Moody

I'm a hundred miles and rising
I'm a thousand feet and climbing

Never goin' back, never comin' down
Never goin' back, never comin' down

Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down

We're shiftin' into higher gear
And we can see that gold don't disappear

Never goin' back, never comin' down
Never goin' back, never comin' down

Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down

Terra Firma

Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down
Never go back, never go down

Never goin' back, never comin' down
Never goin' back, never comin' down
Never goin' back, never comin' down
Never goin' back, never comin' down
