

## The 7

**Franc Moody**

It's been years since we met  
Do you still find it hard to forget, like I do  
'Cause I won't hang up my gun (no way, no way, no way, no way)  
Celestial bodies working as one

The seven  
I often think about you  
Whoa, the seven  
Lord, I've been looking for you  
Lord, I've been looking for you  
Lord, I've been looking for you  
The sunlight's breaking through

The seven  
Soon everything  
Soon everything's gonna be alright  
The seven  
I often think about you  
Whoa, the seven  
Soon everything  
Lord, I've been looking for you

Lord, I've been looking for you

The sunlight's breaking through  
Can you feel it?  
The sunlight's breaking through  
Can you feel it?  
Lord, I've been looking for you  
The sunlight's breaking through  
Can you feel it?  
The sunlight's breaking through  
Can you feel it?  
Lord, I've been looking for you  
Can you feel it?
