

Too Soft

Frances Forever

Cry on my end of the line
You said that you would be fine
I'm in a different time

I miss the forest walks when we'd kiss
Say "nothing compares to this"
Take it all for granted until we're left standing
Alone
On the phone

Tell me all about your day
Make it all go away
I lied when I said I'm okay
I know it might be a cliché
But I wish I could make you stay
I'm too soft, babe
I'm too soft, babe
Mm, too soft, babe
Mm, too soft
Too soft
Babe

And remember how it feels to hold your hand
Across the table singing with the band
Convincing me to dance

You ran up to my car as soon as I pulled in
The smile on your face was so big
Take it all for granted until we're left standing
Alone
On the phone
Oh, alone

Tell me all about your day
Make it all go away
I lied when I said I'm okay
I know it might be a cliché
But I wish I could make you stay
I'm too soft, babe

Is it raining in your city
Do you ever think about me
Just a hopeless romantic who gave too much away
Now I'm crying in a taxi
While you forget about me
Let's go back to the beginning when I didn't know what to say

Leave me on the phone
Standing here alone
Is it a cliché
That I'm too soft, babe
