

Eclipse

Frances

Hold the brakes
Jam the wheel
You make me feel things you've never made me feel before
Hold your breath
Wait a sec
You make me feel things you've never made me feel before

Something's changed in you
A whole new human
Human of love
Something's changed in you
A whole new human
Human of love

We forget
We retract
We lose our way, but memories are flooding from before
Suddenly
Full eclipse
You make me feel things you've never made me feel before

Something's changed in you
A whole new human
Human of love
Something's changed in you
A whole new human
Human of love

The only way to cure the heart is to give it what it wants
