

# Sublime

Frances

Someone told me that you were  
Tryna get away somewhere  
And tryna find your way home  
Someone told me that you were  
Tryna get away somewhere  
And tryna find your way home

But don't leave me hanging cause  
You won't hear me laughing  
If you're gone I can't help you  
Find your way back home

We barely made it  
After all this time  
But it's turning out sublime  
We barely made it  
After all this time  
But it's turning out sublime

I can see it in your eyes  
That it's no surprise  
That I'm still holding on  
I can see it in your eyes  
That it's no surprise  
That I'm still holding on

But don't leave me hanging cause  
You won't hear me laughing  
If you're gone I can't help you  
Find your way back home

We barely made it  
After all this time  
But it's turning out sublime  
We barely made it  
After all this time  
But it's turning out sublime

Ooh, oh-oo, oh-oo  
Oh-oo-oh  
Oh-oo, ooh

We barely made it  
After all this time  
But it's turning out sublime  
We barely made it  
After all this time  
But it's turning out sublime
