

# Future

Francesca Battistelli

Overwhelmed by my tomorrows  
What's ahead I'll never know  
But I believe that You are for me  
And you won't leave me alone

I find peace and I find comfort  
In the One who knows the way  
You have overcome my every struggle  
The God who holds my days

My future is Yours  
My whole life in Your hands  
My hope is secure  
God, Your goodness will stand  
I never have to be afraid  
My trust in You will be my strength  
'Cause You've gone before  
My future is Yours

I will run and not grow weary  
I will walk and not grow faint  
All along You're right beside me  
Your love it keeps me safe  
Forever and always

My future is Yours  
My whole life in Your hands  
My hope is secure  
God, Your goodness will stand  
I never have to be afraid  
My trust in You will be my strength  
'Cause You've gone before  
My future is Yours

You have my world  
You have my dreams  
And for my good  
You work everything  
You're in my joy  
You're in my tears  
And for my good  
You work everything

All along You're right beside me  
Your love it keeps me safe

My future is Yours  
My whole life in Your hands  
My hope is secure  
God, Your goodness will stand  
I never have to be afraid  
My trust in You will be my strength  
'Cause You've gone before  
My future is Yours
