

Call

Francesco Yates

We're alone, we're alone, we're alone... once again
And it's better than being alone here all by myself
I could see it coming from a long way ahead
I don't ever want to be lonely with no one else

But you...
You never told me
Yeah you...
You never told me
If there was more than this

I'm there when you call
I'm there when you call on me

Well it's cold, it's cold, it's cold here next to you
And your close enough to hold me, but not to tell the truth, ba
be
I should'a seen this coming from a long way ahead
Ooh, there's an opening inside you, but you won't let me in

But you...
You never told me
Yeah you...
You never told me
If there was more than this

I'm there when you call
I'm there when you call on me
I'm there when you call me
You never call me

I'm there when you call me
I'm there when you call me
