

# Dive

Francesco Yates

I can swim good, watch me breaststroke  
When I work the middle while I'm rocking your boat  
Water feels nice, it's warm inside  
When I'm in your ocean and I'm riding your tide

So let me hear you talking dirty, baby, show me what you like  
Baby, it's only 11:30 but I'll take you down till 5  
Wanna show you what it's like to feel free  
Floating in the shallow end and then come and get deep, yeah

Oh come and just dive with me  
(Oh come and just) dive with me  
When you're all alone, come get in the zone  
Baby dive with me, oh-ah  
Oh come and just dive with me  
(Oh come and just) dive with me  
When you're all alone, come get in the zone  
Baby dive with me, oh-ah

Baptize me slow (slow) when I got down  
Take away my sins and make them ours for right now  
Baby I don't need to practice, head in first I do it savage  
Overboard without a jacket, water flowing so fantastic, when I

When I hear you talking dirty, tell me all the things you like  
Oh, it's only 11:30 but I'll take you down till 5  
Wanna show you what it's like to feel free  
Floating in the shallow end and then come and get deep

Oh come and just dive with me  
(Oh come and just) dive with me  
When you're all alone, come get in the zone  
Baby dive with me, oh-ah  
Oh come and just dive with me  
(Oh come and just) dive with me  
When you're all alone, come get in the zone  
Baby dive with me, whoa-oooh
