

When I Found You

Francesco Yates

Oh, ha ah ah yeah
Listen to me girl, yeah
What goes up should come down
Got my mind stuck here in the stratosphere
30, 000 feet above the ground
Oh no
I can't breathe when your
Standing so close to me, now tell me can you
Hear my heart beat at the speed of sound?
Oh no no

Just when I thought that I would never ever
Fall in love
You came and I surrender

Cause when I found you
I found forever
And I'll do anything I gotta do
To keep our world together
And believe me when I tell you
My dreams will come true
Baby, baby
Cause when I found you
I, I found forever
Ever ever ever ever
I, I found forever
Ever ever ever ever
I, I found forever

I know I can't be
Happy unless it's gone be you and me forever after
Once upon a time, came suddenly
No (no, no, no)

Just when I thought that I would never ever
(No, no, no)
Fall in love
You came and I surrender

Cause when I found you
I found forever
And I'll do anything I gotta do
To keep our world together

And believe me when I tell you
My dreams will come true
Baby, baby
Cause when I found you
I, I found forever
Ever ever ever ever
I, I found forever
Ever ever ever ever
I, I found forever

Found forever
Na na, oh yeah, oh yeah
Found forever

Na na, oh yeah, oh yeah
Found forever
Na na, oh yeah, oh yeah
Found forever
Na na, oh yeah, oh yeah

Cause when I found you
I found forever
And I'll do anything I gotta do
To keep our world together
And believe me when I tell you
My dreams will come true
Baby, baby
Cause when I found you
I, I found forever
