

## For Days

Francis And The Lights

It's a shame  
That's what it is  
I've been watching you for days now  
I'd never say I wish that it would happen  
But in a way I wish it would

But oh, I didn't do a thing  
But if there was just an air strike  
Or a natural disaster  
You could have been mine  
Oh!  
I hope that I didn't go too far  
But I've been watching you for days now  
You never know  
They could come tomorrow  
And in a way I wish they would

But oh, I didn't do a thing  
But if there was just an air strike  
Or a natural disaster  
You could have been mine  
Oh!

Here I am, staring at you  
Wish you wouldn't look away when you know I want you  
I wish I had four days alone with you  
I wish I had  
But you could have changed my mind in a second  
If you'd given me one second  
Just to think  
You could've looked me in the eye when you said it  
Or given me one second  
Give me one second  
Gimme one second

If there was just an air strike  
Or a natural disaster  
You could have been mine  
Oh!

Stop baby  
I said stop baby
