

## See Her Out (That Just Life)

Francis And The Lights

Just give me information  
Give me information  
Tell me everything  
Come see me on the phone ring  
Just give me the headphones; turn up everything  
(Ooh, yeah)

If you see her out there  
Climbing a wall  
Trying to get away  
Tell her she can't escape  
Whole damn world is a cage  
Whole damn world is a cage

If you see her out there  
Behind the wheel  
Driving getaway  
Oh God, I hope she escapes  
Whole damn world is a cage

But that's just life  
I lived it twice  
I treat you right  
The way you taught me  
That's just life  
I lived it twice  
So I said goodnight  
Don't say it softly

If you see her out there  
Behind the wheel  
Driving getaway  
Oh God, I hope she escapes  
Whole damn world is a cage

But that's just life  
I lived it twice  
I treat you right  
The way you taught me  
That's just life  
I lived it twice  
So say goodnight  
Don't say it softly
