

A Prayer

Franco

All my life, always a scene about frustrations
Doesn't seem right, that's what I'd say
Where would I go, I'm left with nothing
Nothing but apathy
Then it just hit me, I don't wanna feel lonely
Wish I was free
Wish she was me
Yeah wish I was
Lonely as me, hard to understand
But I'm breaking, still shaking
Help me almighty one
Standing from a distance
Your saddened face of death I see
If you look around, many will see
Wish I was free
Wish she was me
Yeah wish I was
Help us pass my way
It's far from end
Now my world spins round round round round
Oh round ohhhh
Wish I was free
Wish she was me
Yeah wish I was
I need wings on my back to lift me up
To heaven where I wish I could stay
Where the river flows, silver snow
Wherever It's taking me I don't know
Wish I was free
Wish she was me
Take me
Take me
Take me
