

All Nighter

Franco

Yes, tonight's the night
Where we become one
Where the lights just right
And the bed is warm

Under the sheets
We break it down
Under the sheets
There's a party
Into the night til the break of dawn
Let's get it on til we had it
All night

So baby take it home
C'mon and take it home
Don't take me baby for no one night stand
Just love me baby love me all you can
To make everything alright

All night

All night with you is what i wanna do
You heartbreaker
You soul-mind stealer
Forget the hater we should always be together
I shouldn't be inclined to your kind

Under the sheets
We break it down
Under the sheets
We party
Into the night til the break of dawn
Let's get it on til we had it
All night

So baby take it home
C'mon and take it home
Don't take me baby for no one night stand
Just love me baby love me all you can
So baby take it home
C'mon and take it home
Don't take me baby for no one night stand
Just love me baby love

Hey, I'll misbehave for you

And then the lovin'
Goes on and on and on and on
It happens everyday
And on and on
I'm feeling like I'm loved

So baby take it home
C'mon and take it home
Don't take me baby for no one night stand
Just love me baby love me all you can
So baby take it home

C'mon and take it home
Don't take me baby for no one night stand
Just love me baby love
