Goodbye, Goodnight

Franco

Goodbye
So long now
I am fine
So I say
The mile
Gets longer and longer
Now I'm farther away
So much farther away

Goodbye

So I compromise
Write letters but no show face
Half skin peeled withering lonely
Am I ready to begin
With this mess that I'm in
Steady running to a standstill
Break away from

Trudging all alone
Consummation overseen over plight
My destination towards life
Alive til the end
Say a prayer

Say a prayer
Say a prayer tonight for me

And my heart it starts to shiver
And my heart I hand deliver
As I stand accused of killing everything

Trudging all alone
Consummation overseen over plight
My destination towards life
Alive til the end
Say a prayer
