

Broken
Rescue me
I'm lonely
Comfort me
Funny as it sounds
But I, I guess I need you around
For now, you're here
For now, you're near
You're the air that I breathe
And you're, you're all that I need
Funny as it sounds
But I, I guess I need you around
For now, you're here
For now, you're near
You're the inspiration
Elevate and hypnotize me
You're the inspiration
Recognize and compromise your fate
You're so right
You give care and devotion
You're so right
You're so right
You're the inspiration
Elevate and hypnotize me
You're the inspiration
Recognize and compromise your fate
You're so right
You're alright
You're alright
You're so
